Overview

GlobalPay strategic discussion with CEO Advisors, led by Don Roberto J. Arguello, to explore potential collaboration opportunities, market positioning, and capital strategy. The conversation focused on financial structuring, expansion strategy, and leveraging industry relationships across banking, insurance, and real estate sectors.

Next Steps

- Review internal capital structure in light of discussed frameworks.
 - Evaluate potential partnerships in LATAM real estate and retail sectors.
 - Follow-up session Tuesday to review Federico's presentation and refine strategy alignment.
 - Betas for Gallo mas Gallo and Lady Lee
-

Key Discussion Points

1. Capital Structure & Banking Relationships

- Emphasis on capitalization strategies aligned with banking requirements and regulatory frameworks (e.g., Basel considerations).
- Discussion around how banks are currently deploying capital and acquiring distribution channels.

- Importance of structuring entities (e.g., holding companies) to optimize capital efficiency and scalability.

2. Market Expansion Strategy

- Growth should be driven by targeted client acquisition and strategic investment in high-potential segments.
- Avoid overextending into non-core verticals; focus on scalable, transaction-driven opportunities.
- Reinforced the importance of disciplined expansion rather than aggressive, unfocused growth.

3. Industry Insights & Opportunities

- Strong opportunities identified in:
- Financial services and transaction-based markets
- Insurance and structured financial products
- Real estate and commercial developments (e.g., shopping centers and retail chains like Lady Lee in Honduras)
- Mention of key regional players and relationships, particularly in Latin America and the Caribbean.

4. Strategic Relationships

- Highlighted the value of leveraging high-level relationships (e.g., Manuel Estrella, Rachid Maloof, and associated networks).
- Potential partnerships in real estate and retail infrastructure (e.g., City Mall concept).
- Importance of credibility and trusted networks in entering new markets.

5. Operational Considerations

- Need for clear operational leadership and execution discipline.
- Avoid unnecessary complexity or “inventing” new structures if existing frameworks suffice.
- Focus on efficiency in client acquisition and capital deployment.

6. Advisory Perspective

- Don Roberto emphasized practical, experience-based guidance over theoretical approaches.
 - Encouraged GlobalPay to remain focused, avoid distractions, and prioritize high-impact opportunities.
 - Advisory support offered informally, with openness to continued dialogue.
-

Key Takeaways

- Maintain focus on core transaction-driven business lines.
 - Align capital strategy with institutional expectations and regulatory frameworks.
 - Leverage strategic relationships to accelerate market entry and credibility.
 - Prioritize disciplined growth and operational clarity over rapid expansion.
